

August 30, 2017

Dear Friend,

Discover Classical, Levin Family Foundation, and Prevent Blindness (PBO), are pleased to host the 17th Annual People of Vision Award Luncheon on **Wednesday, February 14, 2018**. We are excited to announce that for their outstanding philanthropic work in our community we will be honoring:

Christine Soward &

We invite you to join us in honoring these organizations, which reflect a **“vision of community”** to be celebrated and emulated within the greater Dayton area by coming to our award luncheon. To join us at the Prevent Blindness People of Vision Award Luncheon, simply fill out the attached form and return it to us at your earliest convenience.

The People of Vision Award was established in 1985 by Prevent Blindness to honor and recognize visionary organizations and their top leadership for the outstanding work they have undertaken to enhance the quality of life within their communities. The premise of the People of Vision Award is that our community is enriched by such leadership which reflects a “vision of community” to be celebrated & emulated. Through your sponsorship, Discover Classical, Levin Family Foundation, and Prevent Blindness look forward to working with you to not only recognize two community treasures, but also in preventing blindness and preserving sight.

Your sponsorship helps to save the sight of children like Jayden...

“I really wasn’t understanding the importance of his vision. I thought of it as segmented and separate, Jayden’s vision was his vision. Yes, I wanted him to be able to see books and to see the world, but I wasn’t thinking about how integrated and critical vision was for his development and all those other milestones that we were working on with him. But now after Jayden got his glasses, we understand that his vision has played a critical role in hitting his milestones like learning to walk, jump and dance. I credit his glasses and more complete vision to the strides that Jayden has made. I can’t imagine how different and how much quieter of a person Jayden would be if he hadn’t had his glasses and our early intervention when he was first diagnosed at 15 months.” – Erin DiSanto

Sincerely,
The 2018 Prevent Blindness, People of Vision Award Luncheon Chairs
